**3x** 1 on 1 Private Training Sessions OR **5x** Private Group Classes

How the Reciprocity principle can increase referrals

How to use social proof to attract more patients

What the research says about Commitment that significantly decreases expensive no-shows

## In this workshop you will learn:

- ✓ The Six Universal Principles of Persuasion that have been scientifically proven to make you most effective and your practice most successful.
  - Reciprocity
  - Commitment & Consistency
  - Social Proof
  - Liking
  - Authority
  - Scarcity
- ✓ How Dr. Phelps CMCT, Cialdini Method Certified Trainer has used these principles in his practices to:
  - Increase referrals
  - Decrease no shows
  - Increase case acceptance

And much more!

# What our clients are saying about this course...

“ Dr. Phelps knocked it out of the park! This program should be mandatory for every dentist in the United States! ”

- Dr. Richard Rasmussen

“ It's easy for me to recommend Dr. Chris Phelps highly as a Principles of Persuasion Workshop presenter because I am confident that participants in his workshops will do the same. That is so not just because of his engaging presentational style but also because of a truly impressive ability to link workshop material to specific actions steps that improve participants' bottom lines. ”

- Dr. Robert Cialdini

“ I was very grateful to find out about this workshop. I've heard great things about the book INFLUENCE so I listened to the audio book. Honestly, I struggled to figure out how to apply the principles in my dental practice. This course has really helped me to see so many possibilities and opportunities when interacting with patients to gain trust and case acceptance. Thank you! ”

- Lisa Curry, DMD, Curry Dental Center

“ Dr. Phelps course is a must do for any serious dentist looking to take their office to the next level. He will teach you how to actually get patient's to do the treatment they need! We are only 1 week past the course and are already seeing tremendous benefits in our practice! ”

- Dr. Matthew Ross, Arizona

“ After I took the course I was very thrilled to implement positive things to the office. As a team, we applied the principles on the following Monday, such as using "anchor," liking, reciprocation, etc. I tracked the case acceptance on NP and crs on the existing pts. It worked!! All the NPs scheduled back with tx. Acceptance of tx on crs were 80% from the existing pts. I was so shocked to see how the science behind this principles actually reproduced. ”

- Dr. Yoon Y, Centreville, Ohio

“ Three weeks ago my staff and I finished the 2-day 16 hour Principles of Persuasion workshop. Here are some qualitative results since then. No one has left our office without scheduling an appointment with us. No one. Case acceptance is notably increased thanks to the price stairs technique. A/R is dramatically higher the past 2 weeks. The course has paid for itself already. Well done, Chris. I'm glad you got to present to a large awesome group who will also benefit from your wisdom. ”

- Dr. Peter B, Walpole New Hampshire

“ The very first patient we asked this morning, we completed veneers on 6-11, and then she returned for me to crown #4-5 because the old alloy looked ugly and she wanted her smile improved. She's a walking smile now and keeps telling us how much she loves her smile. . . and us. So - I took this as a "thank you" for my new smile, and asked for two things (actually more): we got her recall scheduled, and she's signing release, getting photo taken, writing testimony AND wants to join our DSP because she'll be retiring soon and will lose her dental benefits!! Wow! I told my wife we usually trip over things and break something in the process, but this time we "tripped over" Dr. Phelps through GEMS, and are about "break" records!!! ”

- Dr. George A. Bare, Clarksville Tennessee
